

**Ontario West Fall Gathering**  
**Presented by CFUW Windsor**  
***Project Accelerator***  
**Saturday October 27, 2018**

What's a Project Accelerator?

A Project Accelerator allows you to bring a project idea to a group of people (mentors) who will help you develop the idea into a viable executable project in a short amount of time. At the end of the accelerator session, the project will be presented to the group and feedback will be provided.

What will happen at the Fall Gathering?

Each Ontario West club should bring 1-2 ideas that they would like to turn into club projects. If you're not bringing a potential project idea, then you'll help mentor the various project initiators. You'll help take the idea from a concept to a viable project. This will happen through developing goals, a theme, a location, a timeframe, a budget, a plan, sub-projects, etc...

What kind of ideas should we bring?

Any idea that can be turned into a project will work. Ideas for fundraising events, advocacy, or educational sessions – all are welcome.

My club is already great at running projects, why should we attend?

If your club is already great at running projects then we need you! Come to Windsor and share your expertise with the other Ontario West clubs. Bring your new ideas too and you'd be surprised how much you'll gain from new points of view.

Send the name of your Project Accelerator presenter and idea to [cfuwwindSORnewslet-ter@gmail.com](mailto:cfuwwindSORnewslet-ter@gmail.com) as part of your club's registration.
