

“Talk it Out” Workshops October 5, 2019

Advocacy

Kathryn Wilkinson

Current and future projects:

- take back the night
- sisters vigil
- collections for shelters
- VAW (violence against women)
- indigenous issues
- climate change
- poverty

Partnerships: a lot of interest and discussion about partnerships, including accessing facilities to host events like an all candidates meeting; school boards tend to be more cooperative in smaller communities. The feeling was the partnerships are the way to go, they:

- expose CFUW to potential new members
- they allow for a sharing of resources
- they increase are public profile

CFUW as consultants because of our expertise: we need to sell ourselves more and reach out as consultants because of our knowledge on many issues expertise.
